

FIRST LIGHT SOLAR PARK Groundbreaking Ceremony

April 18, 2008

*On behalf of the Government of Ontario,
I am delighted to extend warm greetings to everyone attending
the groundbreaking ceremony of First Light Solar Park.*

*My colleagues and I remain committed to ensuring
a safe, reliable and sustainable supply of energy for present and
future generations of Ontarians. Thanks to our many partners — individuals,
communities, businesses and municipalities — we are succeeding in building a
clean and green energy future that supports a reliable supply of
electricity, and the sustainability of our environment.*

*First Light Solar Park — the largest of its kind in
North America — is a truly impressive and inspiring undertaking.
Once complete, First Light will deliver clean, renewable
energy — and a brighter future — to Ontarians.*

*A clean, reliable and sustainable energy supply is critical to
ensuring our health, prosperity — and quality of life. I would like to take
this opportunity to recognize the vital work of companies such as SkyPower and
SunEdison in taking up the challenge of producing clean energy — and helping
Ontario become a leader in alternative energy solutions.*

*Please accept my sincere best
wishes for a memorable ceremony.*
